SOFTWARE TEST ENGINEER

PROFILE

To give effective as well as efficient efforts towards the attainment of organizational goals with exploring the wide scope of knowledge and intelligence. To work in an environment that provides a challenging and rewarding career ensuring high-level job satisfaction. In the process apart from benefiting my employer, I also expect to learn for my overall development in Playwright automation

SKILLS

- **Automation Tools:** Playwright
- **Programming Language:** JavaScript, Core Java
- **Automation Test Framework:** Cucumber BDD, Data-Driven
- **API Testing Tools:** Post-Man, Playwright API
- **Version Control Tool:** Git, GitHub
- **Defect Tracking Tool:** Jira
- **CI/CD Tool:** Jenkins
- **Database:** MySQL
- **Design Pattern :** Page Object Model

PROFESSIONAL SUMMARY

- Over **3** years of experience in Information Technology, specializing in Software Quality Assurance Testing in Playwright and Selenium Automation, proficient in testing on API and Web based applications and good experience on Core Java, JavaScript OOPS concepts.
- Extensive working experience on all phases of Software Development Life Cycle (SDLC), its methodologies such as Agile, SCRUM Model.
- Expertise in Automation Testing of Web-based applications using Selenium with Java. Expertise in Automation Testing of API using Rest Assured java library.
- Sound knowledge on Cucumber BDD framework for Unit testing, Jenkins for Continuous Integration. Experience in Creating, Modifying, and Maintaining new and existing Automation Framework Models (Page Object Model, Keyword driven and Data-Driven Frameworks).
- Performed Cross browser testing and Parallel/Sequential testing on Edge, Chrome, and Firefox using Playwright.
- Involved in API testing using Postman. Involved in developing API test scripts using Rest Assured, Cucumber BDD.
- Professional expertise in Smoke Testing, Black Box Testing, User Acceptance Testing (UAT), Functional Testing, Positive/ Negative Testing, System Testing, Regression Testing, GUI Software Testing, Ad-hoc Testing, Cross Browser/ Cross Platform Testing, UI Validation.
- Proficient in using JIRA for bug reporting and collaborated closely with developers and managers to resolve technical issues during automation testing.
- Experience in writing good quality object-oriented code for testing purposes by following industry- standard java coding standards.
- Outstanding communicator with extensive experience in customer service as well as ability to identify, develop and enhance client relationship

WORK EXPERIENCE

● **Company:** Brillquest Technologies Pvt. Ltd.

Mar 2023 - Present

Role: Software Test Engineer

Project : E- Commerce Site

Duration: 2023 - Present

- Developed comprehensive automated test plans and test cases using JavaScript with Playwright, based on project requirements and specifications to validate web application functionality across different browsers.
- Executed manual and automated test cases with JavaScript and Playwright to validate software functionality, identify defects, and ensure adherence to quality standards, reducing manual effort.
- Reported and tracked defects using defect tracking tools, providing detailed documentation and collaborating with development teams for resolution, ensuring efficient bug management and quick resolution.
- Conducted regression testing using JavaScript with Playwright to ensure that new features and code changes did not adversely affect existing functionality, and leveraged Playwright's cross-browser capabilities for better test coverage.
- Maintained thorough documentation of testing activities, including test scripts, test cases, and execution reports, to ensure effective test management and transparency.
- Collaborated with cross-functional teams, including developers, business analysts, and project managers, to ensure the smooth integration of JavaScript with Playwright test scripts into the testing process and overall project workflow.
- Actively contributed to continuous improvement initiatives, identifying opportunities to enhance test automation processes with JavaScript and Playwright and improve overall testing efficiency.

EDUCATION

Bachelor Of Technology – IT

2016 - 2020

Bharathidasan Engineering Collage - Natrampalli
