

SUDHISH

SOFTWARE TEST ENGINEER | QA AUTOMATION ENGINEER

Thirupattur, Tamil Nadu • 7448574251 • sudhish1408@gmail.com

PROFESSIONAL SUMMARY

Software Test Engineer with 3+ years of experience in manual and automation testing of web-based applications. Strong hands-on experience with Playwright and JavaScript for end-to-end UI automation, API testing, reusable automation frameworks, cross-browser testing, and CI/CD integration using GitHub Actions. Experienced in test case and test script preparation, defect reporting, SQL-based backend data verification, Postman API testing, Cucumber BDD, Git/GitHub, JIRA, SDLC, STLC, and Agile methodologies. Strong analytical, problem-solving, communication, and collaboration skills.

TECHNICAL SKILLS

Programming Languages: JavaScript, Java

Automation / Web Testing: Playwright, End-to-End Testing, Cross-Browser Testing

API Testing: Postman, Playwright API, HTTP Methods, Headers, Query Parameters, Path Parameters, Payload Validation

Test Frameworks: Cucumber BDD

CI/CD: GitHub Actions

Build Management: Maven

Version Control: Git, GitHub

Defect Tracking: JIRA

Database: MySQL, SQL

Methodologies: Agile, SDLC, STLC

Operating System: Windows

PROFESSIONAL EXPERIENCE

Brillquest Technologies Pvt Ltd | Software Test Engineer | April 2023 – April 2026

Project: Chemist Warehouse | **Domain:** E-commerce

Environment: Playwright, JavaScript, SQL, Playwright API, Postman, GitHub Actions

- Developed and maintained robust end-to-end automation test scripts using Playwright and JavaScript for web applications.
- Designed and maintained reusable automation framework components and utilities to support scalable test execution.
- Integrated Playwright test suites into CI/CD pipelines using GitHub Actions for automated test execution.
- Executed automated tests across multiple browsers to validate UI consistency and application behavior.
- Prepared and managed structured SQL test data to support automation scenarios and backend data verification.
- Performed API testing and validation using Postman and Playwright API Request Context.
- Validated HTTP methods, headers, query parameters, path parameters, and request payloads during API testing.
- Prepared test cases, test scripts, and test data; analyzed test results and documented defects with clear reproduction details.
- Performed backend verification using SQL queries and MySQL.
- Collaborated with cross-functional teams in Agile ceremonies including daily scrums, sprint planning, and retrospectives.
- Participated in the software testing lifecycle from test preparation and execution through defect reporting and validation.

CORE TESTING SKILLS

Manual Testing • Automation Testing • Functional Testing • Regression Testing • End-to-End Testing • API Testing • Web Application Testing • Cross-Browser Testing • Test Case Design • Test Data Preparation • Defect Reporting • Backend Validation • SQL Testing • CI/CD Testing

EDUCATION

Bharathidasan Engineering College – Anna University | 2016 – 2020

Bachelor of Technology in Information Technology

ADDITIONAL INFORMATION

Strong communication and collaboration skills with experience coordinating testing activities with cross-functional teams. Committed to continuous learning and quality-focused software delivery.
